

VETRIL ELECTRONICS PVT. LTD.

Phone: 91-80-28360561

web: www.vevtrilindia.in email: sales@vevtrilindia.in

In Vetril Electronics Pvt. Ltd., we manufacture a variety of electronic components- magnetic wound components such as transformers, inductors, chokes, coils etc. for electronic application. These components have application in consumer electronics, computers, telecommunication, defense, power electronics, instrumentation etc.

Inductive components are most important in many electronics applications. At 'VETRIL' we offer the best solutions in these components. We continuously update our knowledge of design, materials, technology etc. to give you the latest inductive components. We are ISO certified company.

We are in the manufacturing business for over four decades. We have developed many import substitution items for BHEL, BEL and other customers. Our name is well known in the electronics industry as component manufacturers. We have the most modern manufacturing of international standards. Our equality standards are at par with the best. We have fully trained and highly skilled workforce.

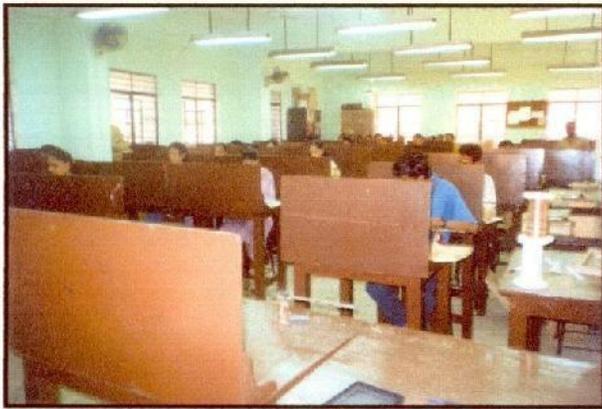

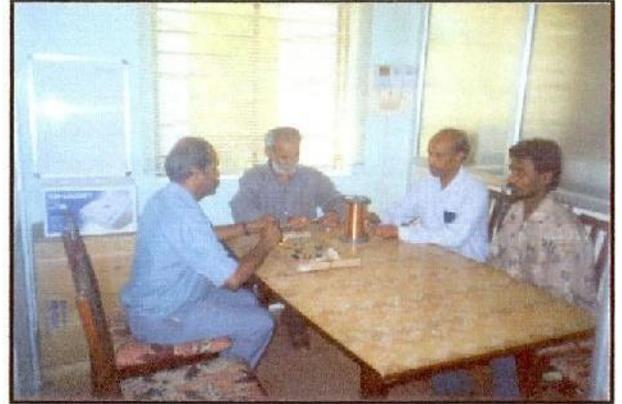

**Vetril Electronics Pvt. Ltd. 547-B, IV Phase, Peenya Industrial Area,
Bangalore-560058**

web: www.vevtrilindia.in email: sales@vevtrilindia.in

Our aim is to give the latest products to our customers. We have our own R & D to design, develop and continuously improve the quality of our products. We have developed no. of import substitutions for our customers. We have our own factory building at Peenya Industrial Area, a prestigious location at Bangalore. Our company is managed by technocrats who are highly qualified and have wide experience in manufacturing, marketing, administration etc.

Our Managing Director, Mr. S.K. Bajaj is a post graduate Engineer from Indian Institute of Science, Bangalore and has more than 40 years of experience in manufacturing, marketing, administration etc. Our other Director, Mr. Vinod Bajaj is also an Engineer with honours having more than 30 years of experience in manufacturing, marketing, administration etc.

Our Directors have very wide contacts in the industry and trade. We are members of ELCINA, ESC, CLIK, PIA, KASSIA, FKCCI etc. Our managing Director is associated with various associations like Peenya Industries Association, Karnataka State Small Scale Industries Association, Karnataka Chamber of Commerce etc. He also held the position of President of PIA, vice President of KASSIA and various other prominent positions in these associations.

In Vetril Electronics Pvt. Ltd., we manufacture a variety of electronic components. We manufacture magnetic wound components such as:

- Deflection Components for TV receivers and computer monitors.
- Components for telecom switches/ exchanges as per C-DOT design/ other designs.
- Components for professional electronics equipments.
- Components for Defense.
- Components for Energy Meters.
- Components for Power Electronics.

The range of wound components manufactured by us include deflection yokes, flyback transformers, SMPS transformers, pulse transformers, line transformers, reactors, inductors, chokes, coils, etc. These components find applications in consumer electronics, computers, telecommunication, professional electronics equipment, defense, energy meters, ups etc. Our components are approved by independent test houses like ETDC, ERTL, C-DOT, Defense etc.

Major products list:

Transformers

- Toroidal Transformers
- Audio frequency Transformers
- Balun Transformers
- Driver Transformers
- Current transformers
- Switching transformers
- DC-DC converter transformers
- Power supply transformers
- High voltage transformers
- Horizontal driver transformers
- IF transformers

web: www.vevtrilindia.in email: sales@vevtrilindia.in

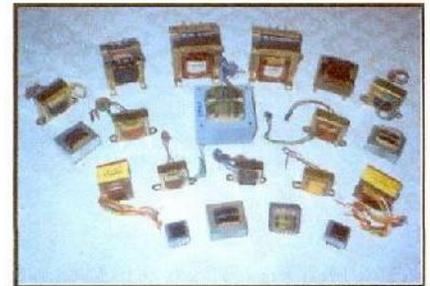

- Igniter transformers
- Input transformers
- Inverter transformers
- Matching transformers
- Oscillation transformers
- Output transformers
- Power transformers
- Pulse transformers
- Reactor transformers
- Side pin cushion corrector transformers
- Flyback transformers
- Line/ Hybrid transformers
- Switching mode power supply transformers

Inductors, Chokes Coils

- Torroidal coils
- Degaussing coils
- Band pass/stop filters
- Choke coils
- Common mode chokes
- FN filters
- Horizontal linearity coils
- Hybrid coils
- Line filters
- Noise filters
- Peaking coils
- Power inductors
- RFI Filters
- Reactor assembly

Phone: 91-80-28360561

web: www.vevtrilindia.in email: sales@vevtrilindia.in

- Ring coils
- Solenoid coils
- Trigger coils
- Torroidal inductors
- Tuning coils
- Varnish/ Epoxy coated fixed inductors
- Variable linarity coils
- Width coils
- Output inductors
- Ringer output inductors
- RF coils
- Teflon core coils
- Deflection yokes
- Shunt coil assembly
- Series coil assembly

Few of our customers for our magnetic wound components:

- BEL
- ITI
- Instrumentation Ltd.
- Keltron
- L & T
- United telecom Ltd.
- ABB Ltd.
- BHEL
- Bharat Dynamics Ltd.
- Defence
- ECIL
- C-Dot
- Crompton and Greeves
- Punjab Communications Ltd.
- Alstom
- Dept. of telecommunication
- GE

Phone: 91-80-28360561

web: www.vevtrilindia.in email: sales@vevtrilindia.in

In the past, we have also served customers for magnetic wound components like:

- Philips
- Weston
- Beltek
- Dynavision
- Solitaire
- Nelco
- Televista
- Telerad
- HTL Ltd.
- Uptron
- Conzerve
- Indchem
- IHinditron
- Kirloskar
- Hartron
- Escorts
- Telematics
- Karnataka Telecom Ltd.
- Meltron
- India Meters Ltd.
- NGEF Ltd.
